

### **Meeting #3 – 10/14/20 – 60 Minutes:**

#### **Check in meeting and setup of project repo/Kanban/SpringMVC App**

- Members present: Gregory, Jake and Michael
- Discussed name of repo
- Created repo and new Spring MVC maven project
- Created Kanban Board and issues together as a team
- Assigned Issues to people as well as iteration tags
- Decided on Monday for enhancements for iteration1
- Work on your wiki pages as you build out enhancements. To be cleaned up prior to release and homepage with links to sub pages added by Michael.
- Standup scheduled Tuesday afternoon for status update and questions/concerns.
- Debugging with release for Wednesday evening if testing and debugging successful
